PROFESSIONAL SUMMARY

Results-driven Java Full Stack Developer with 1.5 years of experience building scalable enterprise applications using Java, Spring Boot, React.js, and MySQL. Currently expanding expertise in Generative AI, AI Agent development using Claude and LLM workflows, and AWS Cloud fundamentals. Passionate about developing intelligent automation solutions, RESTful microservices, and cloud-native applications while continuously learning modern AI and cloud technologies.

TECHNICAL SKILLS

Backend & Frameworks:	Java, Spring Boot, Spring Security, Spring Data JPA, REST APIs, Hibernate, MVC, PHP
Frontend & UI:	React.js, Vue.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
AI & Automation:	Claude API, LLM Application Development, AI Agent Development, Prompt Engineering, Agentic AI
Cloud (AWS Beginner):	Amazon EC2, Amazon VPC, IAM, Security Groups, Route Tables, NAT Gateway, Cloud Networking
Databases & Tools:	MySQL, SQL Optimization, Git, GitHub, Postman, JWT Authentication, SDLC

PROFESSIONAL DEVELOPMENT & UPSKILLING

- AWS Cloud Architecture:** Hands-on labs covering VPC, EC2, IAM, Security Groups, Route Tables, NAT Gateway, Load Balancers, Auto Scaling, and RDS.
- AI & LLM Workflows:** Building AI Agents using Claude APIs, developing automation projects integrating AI with backend services, exploring Agentic AI architectures, and prompt orchestration.

PROFESSIONAL EXPERIENCE

Junior Software Engineer | Siri IT Innovations, Hyderabad

Jan 2025 – June 2026

- Engineered the McLean Integrated Facility Management System using a Microservices architecture built with Java Spring Boot, React.js, and MySQL, deploying robust features for multi-site enterprise operations.
- Architected scalable RESTful APIs leveraging Spring Data JPA and Hibernate for optimized database transactions, powering critical modules like asset tracking and PPM scheduling.
- Integrated React.js front-end components with real-time operational dashboards, successfully reducing data synchronization latency by 20%.
- Implemented secure Role-Based Access Control (RBAC) using Spring Security and JWT (JSON Web Tokens) for automated reporting modules.

PROJECT PORTFOLIO

AI Job Application Agent | GenAI & Automation

- Built an AI-powered automation system that searches multiple job portals, matches resumes against job descriptions, customizes resumes, and automates job applications using LLMs and workflow orchestration.

24/7 AI Voice Assistant | Conversational AI

- Developed a conversational AI voice assistant integrating speech-to-text, LLM reasoning, voice synthesis, and WhatsApp notifications for seamless user interaction.

McLean (Facility & Asset Management System) | Full Stack Java

- Developed a specialized asset management system backend utilizing Java Spring Boot paired with MySQL for robust tracking and continuous maintenance scheduling.
- Constructed highly scalable REST APIs with integrated real-time dashboard analytics and dynamic QR code generation functionality.

EDUCATION & CERTIFICATIONS

Certified Full Stack Java Developer | KodNest Technologies

End-to-End Training

B.Tech in Computer Science & Engineering | Siddhartha Institute of Technology and Sciences

2019 – 2023
